

Client
City of Liverpool College

Location
Liverpool City Centre

Project Value
£50,000

Sector
Higher Education

Through the CIF Framework, Senate were approached to undertake an added value refurbishment of a break-out space on the 1st floor of the Arts Centre.

Due to it being a main thoroughfare for students all works were undertaken in one week, during the Christmas break.

The project included floor, wall and ceiling finishes, new benching, data and power outlets and general upgrades.

Senate did not use any subcontractors on this project, it was kept in-house, which resulted in great feedback on the quality of our finish from the College, Project Manager and the CIF Framework.

Feedback from the Assistant Principal and other staff who have seen the Added Value refurbishment has been that it is brilliant and your attention to detail was above any standards they have seen before.
