

Client
Alsager School

Location
Alsager

Project Value
£250,000

Sector
Education

The project incorporated the full refurbishment of three science laboratory classrooms on the 2nd floor of an existing block, with all work undertaken within the six weeks summer period.

Senate managed all asbestos removal and surveys, through to decoration and upgrading of all finishes in the classrooms.

Senate undertook the upgrading of the mechanical installations, working closely with the nominated laboratory furniture contractor and services consultants.

The project was completed to a very tight programme including all additional works incorporated into the contract.

Your Site Manager was very helpful and organised, a good response throughout the project. The project was delivered in its entirety prior to students returning from the Summer Holiday period.
