

Client  
Bridgewater High School

Location  
Warrington

Project Value  
£550,000

Sector  
Education

**Replacement of the existing windows, external doors and cladding to the Lower School site, including remodelling the main entrance and constructing a new entrance canopy**

Through competitive tender, this CIF scheme involved working in and around a live high school.

Senate undertook the removal of asbestos, replacement of existing windows and cladding to building elevations on the Lower School site. We also replaced external doors and constructed a new entrance canopy.

Internally we undertook remodelling works to the existing hall during the school holidays.

We achieved a saving of **£50K** on the windows, which was given back to the school, equating to **10%** of the overall contract value of £500K.
