

Client
Cathedral Academy

Location
Wakefield

Project Value
£400,000

Sector
Education

Senate have been involved in both M&E works and general building works as part of this project, based at Cathedral Academy in the heart of Wakefield.

This project was a large heating and infrastructure job, which was in total an eight month project. All work was undertaken in a live environment.

We provided the following works throughout the project:

- Installation of new heating controls
- Upgrade to communal lighting
- Additional making good works throughout

As part of our ongoing works within the education sector, we worked closely with Cathedral Academy to ensure all works were undertaken sensitively throughout, especially as much of the work was carried out during 'lockdown'.
