

Client  
Holmes Chapel High School

Location  
Holmes Chapel, Cheshire

Project Value  
£280,000

Sector  
Education

**Another one of our summer school refurbishment projects which saw us undertake a range of works as part of the programme.**

Senate led on the removal of asbestos from the school site, and carried out a number of surveys to support this.

We installed a brand new heating and water plant, making the school much more efficient and effective to run.

Additional works carried out include:

- **BMS system installation**
- **New external gas main from boundary**
- **New flues installed**
- **Conversion of room into fully functioning office space.**

*Working on this project allowed us to show the full-scope of our abilities. From M&E works through to office conversions, we've made important improvement to ensure the school continues to run efficiently and effectively for many years to come.*

**Colin Crosby**  
Director, Senate Group
